## 6) Describe the Issuer's Business, Products and Services

Blue Ridge Real Estate Company, or Blue Ridge, was incorporated in Pennsylvania on August 8, 1911. Blue Ridge owns investment properties in Eastern Pennsylvania, New Jersey and Minnesota.

Blue Ridge's year end date is October 31<sup>st</sup>.

Blue Ridge's primary SIC code is 6500.

Blue Ridge and its wholly-owned subsidiaries, operate through three business segments which consist of Resort Operations, Real Estate Management/Rental Operations and Land Resource Management. Our business segments were determined from our internal organization and management reporting, which are based primarily on differences in services we provide.

### *Resort Operations (SIC Code 6512)*

Resort Operations consists of: amenities surrounding Big Boulder Lake – Boulder View Tavern and Boulder Lake Club; the Jack Frost National Golf Course; and The Stretch fishing club.

### *Real Estate Management/Rental Operations (SIC Code 6519)*

Real Estate Management/Rental Operations consists of: investment properties leased to others located in Eastern Pennsylvania, New Jersey and Minnesota; services to the trusts that operate resort residential communities; and rental of communication towers and signboards.

### *Land Resource Management (SIC Code 6552)*

Land Resource Management consists of: land sales; land purchases; timbering operations; a real estate development division; and leasing of land and land improvements. Timbering operations consist of selective timbering on our land holdings. Contracts are entered into for parcels that have had the timber selectively

marked. The real estate development division is responsible for the residential land development activities which include overseeing the construction of single and multi-family homes and development of infrastructure.

*Our business faces significant risks. Some of the following risks relate principally to our business and the industry and statutory and regulatory environment in which we operate. Other risks relate principally to financial investments and the securities markets and ownership of our stock. The risks described below may not be the only risks we face. Additional risks that we do not yet know of or that we currently think are immaterial may also impair our business operations. If any of the events or circumstances described in the following risk factors actually occurs, our business, financial condition or results of operations could suffer, and the trading price of our common stock could decline.*

### **Risks Related to Our Business and Our Industry**

***We are exposed to risks associated with real estate development.***

We have extensive real estate holdings near our mountain resorts and elsewhere in the United States. The value of our real property and the revenue from related development activities may be adversely affected by a number of factors, including:

- unexpected construction costs or delays;
- government regulations and changes in real estate, zoning, land use, environmental or tax laws;
- attractiveness of the properties to prospective purchasers and tenants;
- local real estate conditions (such as an oversupply of space or a reduction in demand for real estate in an area);
- competition from other available property or space;
- potential liabilities under environmental and other laws;
- our ability to obtain adequate insurance;
- interest rate levels and the availability of financing; and
- national and local economic climate.

***A downturn in the demand for residential real estate or the increase in the supply of real estate available for sale and declining prices could adversely impact our business.***

The real estate development industry is cyclical in nature and is particularly vulnerable to unpredictable shifts in regional and national economic conditions. The United States housing market suffered a dramatic downturn in July 2007. The collapse of the housing market contributed to the recession in the national economy, which exerted further downward pressure on housing demand and resulted in an oversupply of existing homes for sale nationwide. As a result of this downturn, our real estate sales and revenues were adversely affected. Resort vacation unit rental and ownership is a discretionary activity entailing relatively high costs, and a further decline in the regional or national economies where we operate could adversely impact our real estate development operations. Accordingly, if market conditions were to worsen, the demand for our real estate products could further decline, negatively impacting our business, results of operations, cash flows and financial condition.

***If the market values of our home sites and other developed real estate assets were to drop below the book value of those properties, we would be required to write-down the excess book value of those properties, which would have an adverse effect on our balance sheet and our earnings.***

We have owned the majority of our land for many years, having acquired most of our land in the 1960's. Consequently, we have a very low cost basis in the majority of our land holdings. We have subdivided and developed parcels with infrastructure improvements and also constructed a golf course and temporary clubhouse, which required significant capital expenditures. Many of these costs are capitalized as part of the book value of the land development. Adverse market conditions, in certain circumstances, may require the book value of the real estate assets to be decreased, often referred to as a "write-down" or "impairment." A write-down of an asset

would decrease the value of the asset on our balance sheet and would reduce our earnings for the period in which the write-down is recorded.

During Fiscal 2015, we recorded total asset impairment costs of \$8,900,000 which related to the write-down of the Jack Frost National Golf Course. If market conditions were to continue to deteriorate, and the market values of our home sites and other developed real estate were to fall below the book value of these assets, we could be required to take additional write-downs of the book value of those assets.

***If we are not able to obtain suitable financing, our business and results of operations may decline.***

Our business and earnings depend substantially on our ability to obtain financing for the development of our residential communities, whether from bank borrowings, public offerings or private placements of debt or equity. There was a \$0 outstanding balance on the \$250,000 revolving credit facility as of October 31, 2016. Approximately \$6,936,000 of our long term debt is due and payable at various times to August 2031.

If we are not able to obtain suitable financing at reasonable terms or replace existing debt and credit facilities when they become due or expire, our costs for borrowings will likely increase and our revenues may decrease, or we could be precluded from continuing our operations at current levels.

***Competition and market conditions relating to our real estate management operations could adversely affect our operating results.***

We face competition from similar retail centers that are near our retail properties with respect to the renewal of leases and re-letting of space as leases expire. Any new competitive properties that are developed close to our existing properties also may impact our ability to lease space to creditworthy tenants. Increased competition for tenants may require us to make capital improvements to properties that we would not have otherwise planned to make or may also have a downward impact on rental prices. Any unbudgeted capital improvements could adversely affect our results of operations. Also, to the extent we are unable to renew leases or re-let space as leases expire, it would result in decreased cash flow from tenants and could adversely affect our results of operations.

Our retail properties are subject to adverse market conditions, such as population trends and changing demographics, income, sales and property tax laws, availability and costs of financing, construction costs and weather conditions that may increase energy costs, any of which could adversely affect our results of operations. If the sales of stores operating at our properties were to decline significantly due to economic conditions, the risk that our tenants will be unable to fulfill the terms of their leases or will enter into bankruptcy may increase. Economic and market conditions have a substantial impact on the performance of our anchor and other tenants and may impact the ability of our tenants to make lease payments and to renew their leases. If, as a result of such tenant difficulties, our properties do not generate sufficient income to meet our operating expenses, including debt service, our results of operations would be adversely affected.

***Our business is subject to heavy environmental and land use regulation.***

We are subject to a wide variety of federal, state and local laws and regulations relating to land use and development and to environmental compliance and permitting obligations, including those related to the use, storage, discharge, emission and disposal of hazardous materials. Any failure to comply with these laws could result in capital or operating expenditures or the imposition of severe penalties or restrictions on our operations that could adversely affect our present and future resort operations and real estate development. In addition, these laws and regulations could change in a manner that materially and adversely affects our ability to conduct our business or to implement desired expansions and improvements to our facilities.

***We are subject to litigation in the ordinary course of business.***

We are, from time to time, subject to various legal proceedings and claims, either asserted or unasserted. Any such claims, whether with or without merit, could be time-consuming and expensive to defend and could divert management's attention and resources. While management believes we have adequate insurance coverage and

accrued loss contingencies for all known matters, we cannot assure that the outcome of all current or future litigation will not have a material adverse effect on us.

***Implementation of existing and future legislation, rulings, standards and interpretations from the FASB or other regulatory bodies could affect the presentation of our financial statements and related disclosures.***

Future regulatory requirements could significantly change our current accounting practices and disclosures. Such changes in the presentation of our financial statements and related disclosures could change the interpretation or perception of our financial position and results of operations.

***If we are unable to retain our key executive personnel and hire additional personnel as required, our business and prospects for growth could suffer.***

We believe that our operations and future development are dependent upon the continued services of our key executive personnel. Moreover, we believe our future success will depend in large part upon our ability to attract, retain and motivate highly skilled management employees. If one or more members of our management team or other key personnel become unable or unwilling to continue in their present positions and if additional key personnel cannot be hired as needed, our business and prospects for growth could be materially adversely affected.

***The cyclical nature of the forest products industry could adversely affect our timbering operations.***

Our results of operations are affected by the cyclical nature of the forest products industry. Historical prices for logs and wood products have been volatile, and we, like other participants in the forest products industry, have limited direct influence over the time and extent of price changes for logs and wood products. The demand for logs and wood products is affected primarily by the level of new residential construction activity and, to a lesser extent, repair and remodeling activity and other industrial uses. The demand for logs is also affected by the demand for wood chips in the pulp and paper markets. These activities are, in turn, subject to fluctuations due to, among other factors:

- changes in domestic and international economic conditions;
- interest rates;
- population growth and changing demographics; and
- seasonal weather cycles (e.g., dry summers, wet winters).

Decreases in the level of residential construction activity generally reduce demand for logs and wood products. This results in lower revenues, profits and cash flows in our Land Resources Management segment. In addition, industry-wide increases in the supply of logs and wood products during favorable price environments can also lead to downward pressure on prices. Timber owners generally increase production volumes for logs and wood products during favorable price environments. Such increased production, however, when coupled with even modest declines in demand for these products in general, could lead to oversupply and lower prices.

### **Risks Related to Our Investments**

***Our cash and cash equivalents could be adversely affected if the financial institutions in which we hold our cash and cash equivalents fail.***

For purposes of reporting cash flows, the Company considers cash equivalents to be all highly liquid investments with maturities of three months or less when acquired. We maintain the cash and cash equivalents with reputable major financial institutions. Deposits with these banks exceed the Federal Deposit Insurance Corporation (“FDIC”) insurance limits. These balances could be impacted if one or more of the financial institutions with which we deposit fails or is subject to other adverse conditions in the financial or credit markets. To date, we have experienced no loss or lack of access to our invested cash or cash equivalents, however, we can provide no assurance that access to our invested cash and cash equivalents will not be impacted by adverse conditions in the financial and credit markets.

***Our investments in marketable securities are subject to risks which may cause losses and affect the liquidity of these investments.***

We invest funds in excess of those needed for working capital in preferred stocks, corporate bonds, federal agency bonds, money markets and other financial instruments with weighted average maturities of 18 months or less. Significant declines in the value of these investments due to the operating performance of the companies we invest in or general economic or market conditions may result in the recognition of realized or impairment losses which could be material.

### **Risks Related to Our Common Stock**

***We do not expect to pay dividends on our common stock.***

Although we have declared and paid dividends on our common stock in the past, we do not anticipate declaring or paying any dividends in the foreseeable future. We plan to retain any future earnings to finance the continued expansion and development of our business. As a result, our dividend policy could depress the market price for our common stock.

***We are effectively controlled by Kimco Realty Services, Inc., and other shareholders have little ability to influence our business.***

As of January 30, 2017, Kimco Realty Services, Inc., a wholly-owned subsidiary of Kimco Realty Corporation, owned at least 1,425,153 shares, or approximately 58% of our outstanding voting stock. Kimco Realty Services is able to exercise significant control over all matters requiring shareholder approval, including the election of directors and approval of significant corporate actions, such as mergers and other business combination transactions. This concentration of ownership may also have the effect of delaying or preventing a change in control over us unless it is supported by Kimco Realty Services. Accordingly, your ability to influence us through voting your shares is very limited.

Mr. Raymond Edwards and Mr. David Domb, two of the Company's Directors, are employees of Kimco Realty Corporation.

***Our common stock is thinly traded. Our stock price may fluctuate more than the stock market as a whole.***

As a result of the thin trading market for our stock, its market price may fluctuate significantly more than the stock market as a whole or the stock prices of similar companies. Of the 2,443,824 shares of our common stock outstanding as of January 30, 2017, approximately 42% of such shares are beneficially owned by persons other than Kimco Realty Services, our controlling shareholder. Without a larger float, our common stock will be less liquid than the stock of companies with broader public ownership, and, as a result, the trading prices for our common stock may be more volatile. Among other things, trading of a relatively small volume of our common stock may have a greater impact on the trading price for our stock than would be the case if our public float were larger.

***Holders of our securities are subject to the risks of an investment in a private rather than a public company.***

The Company has deregistered and its reporting obligations were suspended under the Security and Exchange Act of 1934, as amended, on February 13, 2014 after filing Form 15 with the Securities and Exchange Commission. The Company's stock is currently quoted and traded on the OTC Markets Pink Sheets.

Holders of the Company's shares:

- may suffer losses if the Company does not establish profitability and sustain earnings and cash flow in the future;
- will be subject to risk of a decline in the Company's results of operations and potential adverse effects on the Company from an inability to obtain adequate working capital;
- will likely experience a reduction in the already limited liquidity of the Company's shares, thus making a sale in the market more difficult because the Company ceased to be a reporting company;

- will not experience a significant increase in their respective ownership percentages of the Company's shares; and
- will likely, especially if an unaffiliated shareholder, have less access to information about Blue Ridge because the Company ceased to be a reporting company.

There may not be a sufficient number of shares outstanding and publicly traded to ensure a continued trading market in the shares in any over-the-counter market. The continued quotation of our common shares as well as the availability of any over-the-counter trading in our common shares will depend, in part, on the nature and extent of continued publicly available information about Blue Ridge. Although we continue to provide audited annual financial statements and unaudited quarterly financial statements to our shareholders and publish reports and news releases with the OTC Markets, there is no requirement that we do so. Further, under Rule 15c2-11, brokers and dealers are prohibited from publishing any quotation for a security, directly or indirectly, or submitting any such quotation for publication, in any quotation medium unless such broker or dealer has in its records the documents and information required by the rule ("Paragraph A Current Information"), and, based upon a review of such information together with any other documents and information required by the rule ("Paragraph B Information"), has a reasonable basis under the circumstances for believing that the Paragraph A Information is accurate in all material respects, and that the sources of the Paragraph A information are reliable. Market Makers may post quotations in securities of companies with limited financial information only if they can demonstrate to the Financial Industry Regulatory Authority ("FINRA") that the requirements of Rule 15c2-11 are being satisfied.

#### **7) Describe the Issuer's Facilities**

At October 31, 2016, the properties of Blue Ridge and its subsidiaries consisted of 9,849 total acres of land owned by Blue Ridge, Northeast Land Company, Flower Fields Motel, LLC, Blue Ridge WNJ, LLC and Blue Ridge WMN, LLC. 9,846 acres of land are located in the Pocono Mountains, along with 3 acres in various other states. Of this acreage, 8,261 acres were held for investment, 1,433 acres were held for development and 155 acres are classified as long lived assets held for sale. Income is derived from these lands through leases, selective timbering by third parties, sales and other dispositions.

These properties included the Jack Frost National Golf Course, Boulder View Tavern, Boulder Lake Club, a commercial property comprised of 3 acres of vacant land, one shopping center (which was sold December 15, 2014), two retail stores leased to affiliates of Walgreen Company, two single family homes held for investment, two sewage treatment facilities, a members-only fly fishing club, a corporate headquarters building and other miscellaneous facilities.

The majority of the Company's property located in the Pocono Mountains is leased to various hunting clubs.

Blue Ridge owns and leases to its wholly-owned subsidiary, Jack Frost National Golf Course, Inc., an 18-hole golf facility known as Jack Frost National Golf Club, which is located on 203 acres near White Haven, Carbon County, Pennsylvania. The golf course is managed by Billy Casper Golf, LLC, an unaffiliated third party operator.

Blue Ridge owns the Boulder View Tavern, which consists of 8,800 square feet and is located on the eastern shore of Big Boulder Lake, Kidder Township, Carbon County, Pennsylvania. The restaurant initially commenced operations in May 1986. Boulder View Tavern, Inc., an affiliate of Peak Resorts, leased the facility since 2008. Effective, March 16, 2015, the lease with Boulder View Tavern, Inc., was terminated. On March 2, 2015, Management entered into a lease agreement with Lake Mountain, LLC, a wholly owned subsidiary of Blue Ridge Real Estate Company, to lease the facility for a 5-year period. The restaurant has dining capacity for 200 patrons.

Blue Ridge owns the Boulder Lake Club located in Kidder Township, Carbon County, Pennsylvania, which includes the 175-acre Big Boulder Lake, swimming pool, tennis courts, boat docks and accompanying buildings.

Boulder Lake Club was leased to Boulder View Tavern, Inc., an affiliate of Peak Resorts, effective November 1, 2013. Effective, March 16, 2015, the lease with Boulder View Tavern, Inc., was terminated. On March 2, 2015, Management entered into a lease agreement with Lake Mountain, LLC, a wholly owned subsidiary of Blue Ridge Real Estate Company, to lease the facility for a 5-year period.

Blue Ridge owns two single family homes held for investment.

Blue Ridge owns a sewage treatment facility that serves the resort housing at the Jack Frost Mountain Ski Area. The facility has the capacity of treating up to 400,000 gallons of wastewater per day.

Blue Ridge owns a sewage treatment facility that serves the resort housing at the Big Boulder Ski Area. The facility has the capacity of treating 225,000 gallons of wastewater per day.

Blue Ridge owns The Stretch, an exclusive members-only fly fishing club, located along a two-mile stretch of the Tunkhannock Creek in Blakeslee, Pennsylvania.

Blue Ridge owns its corporate headquarters building which is located at 5 Blue Ridge Court in Blakeslee, Pennsylvania.

Northeast Land Company owns 89 acres of vacant land located in the Pocono Mountains, of which 3 acres are held for investment and 86 acres of land are held for development.

Coursey Commons Shopping Center, located in East Baton Rouge Parrish, Louisiana, was owned by Coursey Commons Shopping Center, LLC, a wholly-owned subsidiary of Blue Ridge. The center consisted of 10 acres of land which were reported as acres of discontinued operations. On December 15, 2014, the Company sold the Coursey Commons Shopping Center to Wal-Mart Real Estate Business Trust.

Flower Fields Motel, LLC owns approximately 3 acres of vacant commercial property located along Route 611 in Tannersville, Pennsylvania. The property was the former location of a motel and two cottage buildings which were demolished during the summer of 2008.

Blue Ridge WNJ, LLC owns and leases to Walgreen Eastern Co., Inc., a retail store in Toms River, New Jersey. The property consists of a free-standing Walgreens store, including 2 acres of land, with approximately 14,820 square feet of leasable space.

Blue Ridge WMN, LLC owns and leases to Walgreen Co., Inc., a retail store located in White Bear Lake, Minnesota. The property consists of a free-standing Walgreens store, including 2 acres of land, with approximately 14,820 square feet of leasable space.

### **Independent Auditors' Report**

Board of Directors and Shareholders  
Blue Ridge Real Estate Company

We have audited the accompanying consolidated financial statements of Blue Ridge Real Estate Company and Subsidiaries, which comprise the consolidated balance sheets as of October 31, 2016 and 2015, and the related consolidated statements of operations, comprehensive loss, changes in shareholders' equity and cash flows for the years then ended, and the related notes to the consolidated financial statements.

#### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditors' Responsibility**

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **Opinion**

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Blue Ridge Real Estate Company and Subsidiaries at October 31, 2016 and 2015, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

## NOTES TO AUDITED FINANCIAL STATEMENTS

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

#### **Basis of Presentation:**

The accompanying audited financial statements include the accounts of Blue Ridge Real Estate Company and its wholly-owned subsidiaries (Northeast Land Company, Boulder Creek Resort Company, Moseywood Construction Company, Jack Frost National Golf Course, Inc., BRRE Holdings, Inc., Coursey Commons Shopping Center, LLC, Coursey Creek, LLC, Cobble Creek, LLC, Flower Fields Motel, LLC, Blue Ridge WNJ, LLC, Blue Ridge WMN, LLC and Lake Mountain, LLC) (collectively “Blue Ridge”). All significant intercompany accounts and transactions are eliminated.

#### **Revenue Recognition:**

Revenues are derived from a wide variety of sources, including sales of real estate, management of investment properties, operation of a restaurant and recreational lake club facility, property management services, golf activities, timbering, home construction and leasing activities. Generally, revenues are recognized as services are performed, except as noted below.

#### **Land and Resort Homes:**

The Company recognizes income on the disposition of real estate using the full accrual method. The full accrual method is appropriate at closing when the sales contract has been signed, the buyer has arranged permanent financing and the risks and rewards associated with ownership have been transferred to the buyer. In the few instances that the Company financed the sale, more than 20% down payment is required. The remaining financed purchase price is not subject to subordination. Down payments of less than 20% are accounted for as deposits.

The costs of developing land for resale as resort homes and the costs of constructing certain related amenities are allocated to the specific parcels to which the costs relate. Such costs, as well as the costs of construction of the resort homes, are charged to operations as sales occur. Land held for resale and resort homes under construction are stated at lower of cost or market.

#### **Timbering Revenues:**

Timbering revenues from stumpage contracts are recognized at the time a stumpage contract is signed, at which time the risk of ownership has been passed to the buyer at a fixed, determinable cost. Reasonable assurance of collectability has been determined by the date of signing, and the few obligations of the Company have already been met.

#### **Land and Land Development Costs:**

The Company capitalizes as land and land development costs, the original acquisition cost, direct construction and development costs, property taxes, interest incurred on costs related to land under development and other related costs (engineering, surveying, landscaping, etc.) until the property reaches its intended use. The cost of sales for individual parcels of real estate or condominium units within a project is determined using the relative sales value method. Revenue is recognized upon signing closing documents. At closing a binding contract is in effect, the buyer has arranged for permanent financing and the Company is assured of payment in full. Also at this time, the risks and rewards associated with ownership have been transferred to the buyer. Selling expenses are recorded when incurred.

#### **Land Improvements, Buildings, Equipment and Depreciation:**

Land improvements, buildings and equipment are stated at cost. Depreciation, including amortization of equipment under capital lease is provided principally using the straight-line method over the estimated useful lives as set forth below:

Land improvements	10-30 years
Buildings and improvements	3-40 years
Equipment and furnishings	3-20 years

Upon sale or retirement of depreciable property, the cost and related accumulated depreciation are removed from the related accounts, and resulting gains or losses are reflected in income.

Interest, real estate taxes, and insurance costs, including those costs associated with holding unimproved land, are charged to expense as incurred. Interest cost incurred during construction of facilities is capitalized as part of the cost of such facilities.

Maintenance and repairs are charged to expense, and major renewals and betterments are added to property accounts.

#### **Land Held for Investment:**

Land held for investment is stated at cost and is principally unimproved. Portions of this land are leased on an annual basis primarily to hunting and sportsman clubs. Real estate taxes and insurance are expensed as incurred.

#### **Long-Lived Assets Held for Sale:**

The Company classifies assets as a long-lived asset held for sale upon a signed agreement of sale. The carrying value of the assets held for sale are stated at the lower of carrying value or fair market value less costs to sell. The impairment loss for long-lived assets held for sale is the difference between their carrying value and their fair value less cost to sell. Included in long-lived assets held for sale at October 31, 2016 were 155 acres of land under agreement of sale to Natural Lands Trust, Inc, which closed on November 7, 2016.

#### **Impairment:**

The Company reviews its long-lived assets whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable, which is primarily due to the state of the industry and the economy. In that event, the Company calculates the expected future net cash flows to be generated by the asset. If those net future cash flows are less than the carrying value of the asset, an impairment loss is recognized in operating (loss) profit. The impairment loss is the difference between the carrying value and the fair value of the asset. The impairment loss is recognized in the period incurred.

#### **Deferred Income:**

Deferred income includes dues, rents and deposits on land or home sales. Rents that are not yet earned relate to the Company's commercial properties that have been paid in advance, and dues are related to memberships in the Company's hunting and fishing clubs and golf club memberships paid in advance. The Company recognizes revenue related to the hunting and fishing clubs and golf course memberships over the period that the dues cover. The Company recognizes revenue related to the fishing club over a five-month period, May through September, and the golf course over a seven-month period, April through October. Deposits are required on land and home sales.

#### **Comprehensive Income (Loss):**

The Company's comprehensive income differs from net income (loss) due to changes in the funded status of the Company's defined benefit pension plan (see Note 9) and unrealized gains/(losses) on marketable securities (See Note 8). The Company has elected to disclose comprehensive income and loss in its Statements of Comprehensive Loss.

#### **Income Taxes:**

The Company accounts for income taxes utilizing the asset and liability method of recognizing the tax consequence of transactions that have been recognized for financial reporting or income tax purposes. Among other things, this method requires current recognition of the effect of changes in statutory tax rates on previously provided deferred taxes. For federal income tax purposes, Blue Ridge and its subsidiaries file as consolidated entities. State

income taxes are reported on a separate company basis. Valuation allowances are established, when necessary to reduce tax assets to the amount expected to be realized.

The Company's policies for Accounting for Uncertainty in Income Taxes in an enterprise's financial statements, requires a review of all tax positions and applies a "more-likely-than-not" recognition threshold to determine whether any part of an individual tax position should be recognized in the financial statements. A tax position that meets the more-likely-than-not recognition threshold is measured as the largest amount of tax benefit that is greater than 50 percent likely of being realized upon the ultimate settlement with the taxing authority that has full knowledge of all relevant information.

#### **Use of Estimates and Assumptions:**

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. For example, unexpected changes in market conditions or a continued or further downturn in the economy could adversely affect actual results. Estimates are used in accounting for, among other things, land development costs, asset fair value calculations, marketable securities and accounts and notes receivables, legal liability, insurance liability, depreciation, employee benefits, taxes, and contingencies. Estimates and assumptions are reviewed periodically and the effects of revisions are reflected in the financial statements in the period in which the revisions are determined.

Management believes that its accounting policies regarding revenue recognition, land development costs, long lived assets, deferred income and income taxes among others, affect its more significant judgments and estimates used in the preparation of its financial statements. For a description of these critical accounting policies and estimates, see "Management's Discussion and Analysis of Financial Condition and Results of Operations". There were no significant changes in the Company's critical accounting policies or estimates since the Company's fiscal year ended October 31, 2015 ("Fiscal 2015"). Material subsequent events are evaluated and disclosed through the issuance date of this Annual Report.

#### **Statements of Cash Flows:**

For purposes of reporting cash flows, the Company considers cash equivalents to be all highly liquid investments with maturities of three months or less when acquired.

#### **Cash Concentration of Credit Risk:**

Financial instruments which potentially subject the Company to concentration of credit risk consist principally of temporary cash investments. The Company's temporary cash investments are held by financial institutions. The Company has not experienced any losses related to these investments. At October 31, 2016, the Company had \$1,722 on deposit in excess of the FDIC insured limit of \$250,000. The Company also had \$895,745 invested in two money market funds at October 31, 2016 which are not insured by the FDIC.

#### **Cash Held in Escrow:**

Cash held in escrow consists mainly of funds held in a real estate escrow account in Fiscal 2016 and golf course memberships in Fiscal 2015.

#### **Accounts and Notes Receivable:**

Accounts receivable are reported at net realizable value. Accounts or a portion thereof are written off when they are determined to be uncollectible based upon management's assessment of individual accounts. An allowance for doubtful accounts, if deemed necessary, is estimated based upon a review of individual accounts.

The Companies account for notes receivable on a cost basis. Interest income is recorded on a monthly basis. Late payment fees are charged on overdue payments. Notes receivable are evaluated at origination and monitored on an ongoing basis for credit worthiness. Notes receivable are considered fully collectible by management and

accordingly no allowance for losses is considered necessary. Any note 90 days past due is reviewed by management for collectability. Notes receivable amounted to \$0 and \$172,408 at October 31, 2016 and 2015, respectively. The \$172,408 note receivable was paid off in Fiscal 2016.

**Earnings Per Share:**

Basic earnings per share are calculated based on the weighted-average number of shares outstanding. Diluted earnings per share include the dilutive effect of stock options, if applicable.

**Business Segments:**

The Company currently operates in three business segments, which consist of Resort Operations, Real Estate Management/Rental Operations and Land Resource Management. Financial information about our segments can be found in Note 16.

**Marketable Securities:**

Marketable securities consist of debt securities (9 positions of corporate bonds and 1 government agency bond), investments in preferred stocks (32 positions of financial services and real estate investment trusts) and two certificates of deposit. The debt securities are stated at cost which approximates fair value and are considered available for sale. Investments in preferred stocks are stated at fair value. Debt securities and investments in preferred stocks are not purchased with the intent of selling in the near term. However, from time to time, the Company may decide to sell certain securities for liquidity, tax planning and other business purposes. The cost of securities sold is determined by the specific identification method. Debt investments are adjusted for amortization of premiums and accretion of discounts and recognized as an adjustment of interest income. Unrealized gains and losses on investments in preferred stocks are recorded monthly. Interest and dividends on marketable securities are recognized as income when earned. Contractual maturities on the debt securities range from 1 to 24 months.

**Discontinued operations:**

A component of the Company is classified as a discontinued operation when (i) the operations and cash flows of the component of the Company can be clearly distinguished and have been or will be eliminated from our ongoing operations; (ii) the component has either been disposed of or is classified as held for sale; and (iii) we will not have any significant continuing involvement in the operations of the component of the Company after the disposal transactions. Significant judgments are involved in determining whether a component meets the criteria for discontinued operations reporting and the period in which these criteria are met.

If a component of the Company is reported as a discontinued operation, the results of operations through the date of sale, including any gain or loss recognized on the disposition, are presented on a separate line of the Statements of Operations.

**Reclassification:**

The Company added a new business segment in Fiscal 2016 titled Resort Operations. The segment was created to more clearly present the financial results of the Boulder View Tavern and Boulder Lake Club operations which are aligned with resort services. The Resort Operations segment also includes Jack Frost National Golf Course and "The Stretch" fishing club.

The Company reports the results of discontinued operations as a separate component of income on the statement of operations and the assets and liabilities related to operations separately as discontinued. Due to the termination of an agreement of sale, previously reported discontinued operations have been reclassified back to operations in Fiscal 2016.

These reporting presentations resulted in certain reclassifications of the 2015 financial statement amounts. Accordingly, certain amounts in the Fiscal 2015 financial statements have been reclassified to conform to the Fiscal 2016 presentation.

**New Accounting Pronouncements:**

In April 2014, the FASB issued Accounting Standards Update No. 2014-08 “*Presentation of Financial Statements (Topic 205) and Property, Plant and Equipment (Topic 360) – Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*” (ASU 2014-08) which requires entities to change the criteria for reporting discontinued operations and enhance convergence of the FASB’s and International Accounting Standard Board’s (IASB) reporting requirements for discontinued operations so as not to be overly complex or difficult to apply to stakeholders. Only those disposals of components of an entity that represent a strategic shift that has (or will have) a major effect on the entity’s operations and financial results will be reported as discontinued operations in the financial statements. ASU 2014-08 is effective for fiscal years beginning on or after December 15, 2014 and interim periods thereafter. ASU 2014-08 will be effective for the Company’s financial statements for fiscal years beginning November 1, 2015. Based on the Company’s evaluation of ASU 2014-08, the adoption of this statement on November 1, 2015 did not have a material impact on the Company’s financial statements.

In May 2014, the FASB issued ASU No. 2014-09, “Revenue from Contracts with Customers” (“ASU 2014-09”), which provides guidance for revenue recognition. ASU 2014-09 affects any entity that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of nonfinancial assets and supersedes the revenue recognition requirements in Topic 605, “Revenue Recognition,” and most industry-specific guidance. ASU 2014-09 also supersedes some cost guidance included in Subtopic 605-35, “Revenue Recognition-Construction-Type and Production-Type Contracts.” The standard’s core principle is that a company will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which a company expects to be entitled in exchange for those goods or services. In doing so, companies will need to use more judgment and make more estimates than under the current guidance. These judgments and estimates include identifying performance obligations in the contract, estimating the amount of variable consideration to include in the transaction price, and allocating the transaction price to each separate performance obligation. In August 2015, the FASB issued ASU 2015-14 “Revenue from Contracts with Customers” (“ASU 2015-14”), which delays the effective date of ASU 2014-09 by one year. ASU 2014-09, as amended by ASU 2015-14, is effective for us beginning November 1, 2018, and, at that time, we may adopt the new standard under the full retrospective approach or the modified retrospective approach. We are currently evaluating the method of adoption and the impact the adoption of ASU 2014-09 will have on our financial statements and disclosures.

In January 2016, the FASB issued ASU No. 2016-01, “Financial Instruments – Recognition and Measurement of Financial Assets and Financial Liabilities”, which requires equity investments to be measured at fair value with changes in fair value recognized in net income, requires separate presentation of financial assets and financial liabilities by measurement category and form of financial asset and eliminates the requirement to disclose the fair value of the financial instruments measured at amortized cost. ASU No. 2016-01 is effective for us beginning November 1, 2019, and, at that time, we will adopt the new standard. We are currently evaluating the impact that the adoption of ASU 2016-01 may have on our financial statements and disclosures.

In February 2016, the FASB issued ASU No. 2016-02, “Leases” (“ASU 2016-02”), which requires an entity to recognize assets and liabilities on the balance sheet for the rights and obligations created by leased assets and provide additional disclosures. ASU 2016-02 is effective for us beginning November 1, 2019, and, at that time, we will adopt the new standard using a modified retrospective approach. We are currently evaluating the impact that the adoption of ASU 2016-02 may have on our financial statements and disclosures.

**2. DISCONTINUED OPERATIONS**

As of October 31, 2016, the Agreement of Sale on Lot 5 Maple Terrace located in Saylorsburg, Pennsylvania, was amended four times to extend the expected closing date to December 31, 2016. On November 17, 2016, the Agreement of Sale on Lot 5 Maple Terrace was terminated by the buyer. The lease agreement remains in place through December 31, 2016. Based on this event Management has reclassified the operating activity for this property from discontinued operations to rental income in the Statement of Operations. The assets previously

reported as Assets of Discontinued Operations have been reclassified, \$124,790 to Land improvements, buildings and equipment, net and \$41,892 to Land held for investment, principally unimproved. Accordingly, certain amounts in the Fiscal 2015 financial statements have been reclassified to conform to the Fiscal 2016 presentation.

On November 3, 2014, the Company signed an agreement of sale regarding the Coursey Commons Shopping Center located in Baton Rouge, Louisiana for \$10,900,000. A deposit was received and the property was sold on December 15, 2014. As a result, operating activity for the property was reported as discontinued operations for the year ended October 31, 2015. The net operating results were previously reported in the rental operations of the Statements of Operations.

Operating results of the discontinued operations in twelve months ending October 31, 2016 and 2015 are as follows:

STATEMENTS OF OPERATIONS	Year ended October 31,	
	2016	2015

On April 13, 2015, the Company entered into a revolving line of credit promissory note with Mauch Chunk Trust Company totaling \$250,000. The interest rate is variable monthly based on the New York prime index rate plus 1%, with a floor of 4% and a ceiling of 20% (such interest rate was 4.50% at October 31, 2016). Interest is paid monthly on the outstanding balance with principal payable on demand with a maturity date of April 14, 2017. The line is collateralized with a recorded lien on the brokerage account with Mauch Chunk Trust Company. The proceeds of the loan will be used for working capital. As of October 31, 2016, borrowing available on the line of credit with Mauch Chunk Trust is limited to \$60,000 due to the Letter of Credit and loan agreement. As of October 31, 2016, there is \$0 outstanding on the line.

On January 8, 2016, the Company established an irrevocable stand-by Letter of Credit up to an aggregate of \$140,000 in favor of Pennsylvania Department of Environmental Protection (PA-DEP), Bureau of Waterways Engineering with Mauch Chunk Trust Company. The Letter has a term of one year, renewable annually and is collateralized by the Company's brokerage account with Cetera Advisor Networks, LLC. The letter was renewed on November 21, 2016, and has a new maturity date of November 21, 2017. The letter was established to comply

with legislation that requires Blue Ridge as a private owner of 2 dams to post a financial guarantee adequate to breach the dams if we fail to comply with PA-DEP safety requirements.

On April 1, 2016, the Company entered into a loan agreement with Mauch Chunk Trust in the amount of \$50,000. The proceeds were used to purchase docks at the Boulder Lake Club. Payments of \$1,472 are due monthly with a maturity date of April 1, 2019. The interest rate is fixed at 3.75%. The loan is secured by the Company's certificate of deposit.

On December 26, 2013, the Company entered into a capital lease agreement with PNC Equipment Finance, LLC for mower equipment at Jack Frost National Golf Course in the amount of \$85,073. The capital lease is payable in 24 non-consecutive monthly installments (April through September) of \$3,934 and bears interest at a fixed rate of 4.99%.

The weighted average short term borrowings and interest rate for the year ended October 31, 2016 were \$7,500 and 4.50%, respectively, and on October 31, 2015 were \$7,500 and 4.25%, respectively. As of October 31, 2016, the Company has no variable rate debt

The aggregate amount of debt maturing in each of the next five years and thereafter ending subsequent to October 31, 2016, is as follows: 2017 - \$314,784; 2018 - \$312,362; 2019 - \$325,157; 2020 - \$338,959; 2021 - \$363,102, thereafter \$5,281,379.

The Company's goal is to conservatively invest the plan assets in high-grade securities with a minimum risk of market fluctuation.

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value.

The standard describes three levels of inputs that may be used to measure fair value:

Level 1 – Fair value is based on unadjusted quoted prices in active markets that are accessible to the Plan for identical assets. These generally provide the most reliable evidence and are used to measure fair value whenever available.

Level 2 – Fair value is based on significant inputs, other than level 1 inputs, that are observable either directly or indirectly for substantially the full term of the asset through corroboration with observable market data. Level 2 inputs include quoted market prices in active markets for similar assets, quoted market prices in markets that are not active for identical or similar assets, and other observable inputs.

Level 3 – Fair value would be based on significant unobservable inputs. Examples of valuation methodologies that would result in level 3 classification include option pricing models, discounted cash flows, and other similar techniques.

Information about the Plan's fair value levels follows as at October 31, 2016:

	Level 1	Level 2	Level 3	Total
Money Market Fund	\$169,336			\$169,336
Common Collective Trust Fund of Wilmington Trust Fiduciary Services:				
Aggressive Growth Portfolio		\$600,470		600,470
Intermediate Fixed Income Portfolio		3,231,009		3,231,009

Large Company Value Portfolio		676,048		676,048
Strategic Bond Portfolio		1,715,683		1,715,683
Total	\$169,336	\$6,619,163		\$6,788,499

Information about the Plan's fair value levels follows as at October 31, 2015:

	Level 1	Level 2	Level 3	Total
Money Market Fund	\$178,348			\$178,348
Common Collective Trust Fund of Wilmington				
Trust Fiduciary Services:				
Aggressive Growth Portfolio		\$523,503		523,503
Intermediate Fixed Income Portfolio		2,761,057		2,761,057
International Growth Portfolio		221,907		221,907
International Value Portfolio		224,812		224,812
Large Company Value Portfolio		520,471		520,471
Small Company Growth Portfolio		828,047		828,047
Strategic Bond Portfolio		1,742,535		1,742,535
Total	\$178,348	\$6,822,332		\$7,000,680

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at October 31, 2016 and 2015.

Money market fund is valued at cost, which approximates fair value.

Mutual funds, if any, are valued at the quoted net asset value of the shares and common collective trust funds are valued based upon the unit values of such collective trust funds held by the Plan at year end. Unit values are based on the fair value of the underlying assets of the fund. The fair value of the level 2 funds are derived from inputs principally from or corroborated by observable market data by correlation or other means.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There were no contingent rentals included in income for Fiscal 2016 and 2015. The above information includes rental escalations recognized using straight-line basis.

**14. FAIR VALUE OF FINANCIAL INSTRUMENTS AND IMPAIRMENT:**

The Company uses ASC 820, "Fair Value Measurements" ("ASC 820"), to measure the fair value of certain assets and liabilities. ASC 820 provides a framework for measuring fair value in accordance with GAAP, establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value and requires certain disclosures about fair value measurements.

The fair value hierarchy is summarized below:

- Level 1: Fair value determined based on quoted prices in active markets for identical assets or liabilities.
- Level 2: Fair value determined using significant observable inputs, generally either quoted prices in active markets for similar assets or liabilities or quoted prices in markets that are not active.
- Level 3: Fair value determined using significant unobservable inputs, such as pricing models, discounted cash flows, or similar techniques.

The estimated recurring fair values of the Company's financial instruments at October 31, 2016 and October 31, 2015 are as follows:

	10/31/16		10/31/15	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value

Fair Values were determined as follows:

Cash and cash equivalents, accounts and notes receivable, accounts payable and accrued liabilities: The carrying amounts approximate fair value because of the short-term maturity of these instruments.

Marketable securities consist of debt securities (corporate and governmental agency bonds and commercial paper), preferred stocks and 2 certificates of deposit. Fair value of the marketable securities for corporate bonds is determined using significant observable inputs, either quoted prices in active markets for similar assets or quoted prices in markets that are not active – Level 2 hierarchy. Fair value of preferred stocks and certificates of deposit is determined using unadjusted quoted prices in active markets for identical assets – Level 1 hierarchy.

The following tables set forth by level within the fair value hierarchy the Company's marketable securities asset at fair value as of October 31, 2016 and October 31, 2015.

	Investment Assets at Fair Value as of October 31, 2016

Debt: The fair value of debt is estimated using discounted cash flows based on current borrowing rates available to the Company for similar types of borrowing arrangements - Level 2 hierarchy.

As of October 31, 2016, the carrying amount net of prior period impairments for land and land development costs is \$6,863,526. The carrying amount net of prior period impairments for land improvements, buildings and equipment is \$10,518,644. The carrying amount net of prior period impairments for land held for investment is \$4,194,839. The carrying amount for long-lived assets held for sale is \$18,233, no impairment was ever expensed on this asset held for sale. There was no impairment expense in Fiscal 2016.

As of October 31, 2015, the carrying amount net of prior period impairments for land and land development costs is \$14,517,506, less impairment expense of \$7,654,000, recorded in Fiscal 2015 for a revised carrying value of \$6,863,506. The carrying amount net of prior period impairments for land improvements, buildings and equipment is \$11,856,613, less impairment expense of \$1,246,000, recorded in Fiscal 2015 for a revised carrying value of \$10,610,613. The Jack Frost National Golf Course had a carrying value of \$10,170,144 which was written down by an impairment charge of \$8,900,000, of which \$7,654,000 was on the land value and \$1,246,000 was on the land improvements, buildings and equipment. After careful review of an appraisal finalized in Fiscal 2015, Management determined that the carrying costs of the golf course were in excess of the fair market value and may not be recoverable. Management had previously reviewed the golf property for impairment considering the course in conjunction with the surrounding planned residential development. Management changed this methodology and had an appraisal performed on the golf course only based on concerns of the economic feasibility of the current product mix and number of units in the planned residential development. The carrying amount net of prior period impairments for land held for investment is \$4,228,095. There was a total of \$8,900,000 impairment expense in Fiscal 2015.

The table below summarizes the level of fair value hierarchy in which the fair value measurements resulting in impairment losses during the period ending October 31, 2015 are categorized:

	<b>Non-Recurring Fair Value Measurements at the End of the Reporting Period Using (\$ in thousands)</b>				
	10/31/2015	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Losses
Land and land development costs (a)	\$1,002		\$1,002		\$7,654
Land improvements, buildings and equipment, net (b)	\$268		\$268		\$1,246
Total nonrecurring fair value measurements	\$1,270		\$1,270		\$8,900

(a) In accordance with Subtopic 360-10, land and land development costs with a carrying value of \$8,656,000 were written down to their fair value of approximately \$1,002,000, resulting in impairment expense of \$7,654,000, which was included in the loss for the period. Due to a recent appraisal Management determined

the carrying costs of the golf course land and land development costs were in excess of fair market value and may not be recoverable.

(b) In accordance with Subtopic 360-10, land improvements, buildings and equipment, net with a carrying value of \$1,514,000 were written down to their fair value of approximately \$268,000, resulting in impairment expense of \$1,246,000, which was included in the loss for the period. Due to a recent appraisal Management determined the carrying costs of the golf course land improvements, buildings and equipment, net were in excess of fair market value and may not be recoverable.

The appraisal was developed using an income approach, which uses discounted cashflows. We consider the income approach to be a reliable indicator of the final value because a typical buyer actions will depend heavily on the income potential of the property. The income approach is based upon the premise that value is measured by the present worth of future benefits, which are derived from the property's income potential.

## 17. CONTINGENCIES AND UNCERTAINTIES:

The Company is party to various legal proceedings incidental to its business. Certain claims, suits and complaints arising in the ordinary course of business are possible of assertion against the Company.

Effective July 1, 2014, in accordance with the Boulder Lake Village Declaration and the provisions of the Pennsylvania Uniform Condominium Act, 68 Pa.C.S. § 3101 et seq., the Company's representatives resigned from both the Executive Board of Boulder Lake Village Condominium Association ("BLVCA") and from their positions as BLVCA officers. As a result, the BLVCA Board transitioned to an all-Unit Owner Executive Board. As part of the transition process, the BLVCA Board and the Company's management commissioned an engineering study to assess the condition of BLVCA Building J. In June 2015, BLVCA presented the Company with a Transition Engineering Evaluation of BLVCA Building J (the "Evaluation") which indicated certain deficiencies exist. Management has met with the BLVCA Board to review a proposed settlement agreement. While the actual liability of this claim is uncertain at this time and could rise to a level of materiality, management has recorded an estimated liability for what the Company believes it will owe, based on information available at the time of issuance of the financial statements.

## 18. RELATED PARTY TRANSACTIONS:

KRSX Merge LLC, or KRSX, is our controlling shareholder and Kimco Realty Corporation, or Kimco, the parent company of KRSX, provides consulting services to us. The services are focused on land development, acquisitions and disposals. Kimco was paid \$0 in consulting fees in each of Fiscal 2016 and 2015.

KRC Property Management I, Inc., a wholly owned subsidiary of Kimco Realty Corporation, has served as the management company for the Coursey Commons Shopping Center in Baton Rouge, Louisiana since June 2004. On December 15, 2014, the shopping center was sold. KRC Property Management I, Inc., received a fixed monthly

fee of 4.5% of rental income on store leases in this shopping center. During Fiscal 2015, that subsidiary received \$2,167 for management fees earned for management of the shopping center.

On October 1, 2014, the Company entered into a short term promissory note with Kimco Capital Corporation, a wholly owned subsidiary of Kimco Realty Corporation in the amount of \$3,000,000. The interest only note was secured with a mortgage on Coursey Commons Shopping Center. The note bore interest at a fixed rate of 5.59% per annum payable monthly with the balance of unpaid interest and principal due December 31, 2014. The proceeds of the loan along with a portion of invested funds were used to pay a mortgage of \$6,463,324 on the Coursey Commons Shopping Center which matured on October 1, 2014. On December 15, 2014, the Coursey Commons Shopping Center was sold and the loan with Kimco Capital Corporation was paid in full.

Mr. Raymond Edwards, one of our Board of Directors, is Executive Vice President of Kimco Realty Corporation.

Mr. David Domb, one of our Board of Directors, is Senior Director and Associate to the Executive Chairman of Kimco Realty Corporation.

Amounts due to the above related parties total \$0 at October 31, 2016 and October 31, 2015.

## 19. STOCK OPTIONS and CAPITAL STOCK:

During Fiscal 2016 and 2015, no stock options were issued or exercised. For Fiscal 2016 and 2015, there were no outstanding stock options.

The Company's policy regarding the exercise of options requires that optionees utilize an independent broker to manage the transaction, whereby the broker sells the exercised shares on the open market.

## 20. PER SHARE DATA:

Earnings per share ("EPS") is based on the weighted average number of common shares outstanding during the period. The calculation of diluted EPS assumes weighted average options have been exercised to purchase shares of common stock in the relevant period, net of assumed repurchases using the treasury stock method. For Fiscal 2016 and 2015, there were no unexercised stock options. As a result, the calculation of diluted EPS has been excluded from the table below since diluted EPS for these periods is equal to EPS.

During the fiscal years ended October 31, 2016 and 2015, the Company repurchased 221 and 731 shares of its common stock, respectively. Upon transfer, all shares were cancelled and returned to the status of authorized but unissued.

Weighted average basic shares, taking into consideration shares issued, weighted average options, if any, used in calculating EPS, treasury shares repurchased, shares cancelled and basic earnings (loss) for Fiscal 2016 and 2015 are as follows:

	<b>10/31/16</b>	10/31/15
Weighted average shares of common stock outstanding used to compute basic loss per share	<b>2,443,954</b>	2,444,419
Basic loss per weighted average share is computed as follows:		
	<b>10/31/16</b>	10/31/15
Net loss before discontinued operations	<b>(\$212,128)</b>	(\$10,345,182)
Weighted average shares of common stock outstanding	<b>2,443,954</b>	2,444,419
Basic loss per weighted average share	<b>(\$0.09)</b>	(\$4.23)
Net income from discontinued operations	<b>\$0</b>	\$1,219,289
Weighted average shares of common stock outstanding	<b>2,443,954</b>	2,444,419
Basic earnings per weighted average share	<b>\$0.00</b>	\$0.50
Net loss	<b>(\$212,128)</b>	(\$9,125,893)
Weighted average shares of common stock outstanding	<b>2,443,954</b>	2,444,419
Basic loss per weighted average share	<b>(\$0.09)</b>	(\$3.73)

**21. SUPPLEMENTAL DISCLOSURE TO STATEMENTS OF CASH FLOWS**

Supplemental disclosures of cash flow information:

	<b>10/31/16</b>	10/31/15
Cash:		
Interest paid	<b>\$486,404</b>	\$524,172
Income taxes paid	<b>\$130,000</b>	\$7,400

Reclassification of assets from land held for investments, principally unimproved to long-lived assets held for sale	<b>\$13,401</b>	
Increase in accounts and notes receivable and increase accounts payable		\$560,580

Pension liability and accumulated other comprehensive loss was increased (decreased) by \$207,800 and (\$207,800) in 2016 and increase (decreased) by \$343,348 and (\$343,348) in 2015 resulting from changes in the funded status, the prior service cost and the net actuarial loss.

Marketable securities available for sale and shareholders' equity increased by \$40,941 for marketable securities available for sale held at October 31, 2016, resulting in changes in net unrealized gains and losses.

**22. SUBSEQUENT EVENTS:**

The Company has evaluated and disclosed subsequent events from October 31, 2016 through the issuance date of the financial statements.

On November 7, 2016, the Company closed on the sale of land with the Natural Lands Trust conveying approximately 155 acres for the purchase price of \$412,000.

On November 21, 2016, the Company renewed an irrevocable stand-by Letter of Credit up to an aggregate of \$140,000 in favor of Pennsylvania Department of Environmental Protection (PA-DEP"), Bureau of Waterways Engineering with Mauch Chunk Trust Company. The Letter has a term of one year, renewable annually and is collateralized by the Company's brokerage account with Cetera Advisor Networks, LLC. The letter was established to comply with legislation that requires Blue Ridge as a private owner of 2 dams to post a financial guarantee adequate to breach the dams if the Company fails to comply with PA-DEP safety requirements.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

The following discussion should be read in conjunction with the Financial Statements of Blue Ridge (the "Company") and related notes thereto.

### **Overview**

Over the past 30 years, we have developed resort residential communities adjacent to the Jack Frost Mountain and Big Boulder Ski Areas located in Lake Harmony, Kidder Township, Pennsylvania. These communities are located in the Pocono Mountains of Pennsylvania, a popular recreation destination for local and regional visitors, especially from the New York City and Philadelphia metropolitan areas. The scenic hills and valleys of the Pocono Mountains offer many opportunities to enjoy outdoor activities such as golfing, fishing, hunting, skiing, snowboarding and other sports.

At October 31, 2016, we owned 9,846 acres of land in Northeastern Pennsylvania along with 3 acres of land in various other states for a total of 9,849 acres. Of these land holdings, we designated 8,261 acres as held for investment, 1,433 acres as held for development and 155 acres classified as long lived assets held for sale. It is expected that all of our planned developments will either be subdivided and sold as parcels of land, or be developed into single and multi-family housing.

The real estate industry is cyclical and is subject to numerous economic factors including general business conditions, changes in interest rates, inflation and oversupply of properties. Any sustained period of weakening business or economic conditions will impact the demand for the type of properties we intend to develop. Management continues to monitor the progress of residential home sales within the Northeast.

In light of the economic environment, we will continue to evaluate our strategic plan and our master development plan. We have reviewed the Company's land inventory, oil, gas and mineral rights and development portfolio with a view to maximize shareholder value. As in the past, we will continue to consider opportunistic asset sales of non-core investment properties as a means of funding future operations.

We also have generated revenue through the selective timbering of our land. We rely on the advice of our forester, who is engaged on a consulting basis and who receives a commission on each stumpage contract, for the timing and selection of certain parcels for timbering. Our forester gives significant attention to protecting the environment and maximizing the value of these parcels for future timber harvests. We have not entered into any new timber harvest contracts for the timbering of our lands since March 2012 in order to provide ample time for the regeneration of trees. Our forester will monitor the growth and timbering will resume when we, in consultation with our forester, deem prudent.

The Jack Frost National Golf Course is managed by Billy Casper Golf, LLC, a nationally-recognized golf course management company. With a continued emphasis on course maintenance, along with the natural maturation of the fairways, Jack Frost National has become one of the premier golf facilities in Northeastern Pennsylvania. Year to year financial performance continues to improve.

As a result of the Company's focus on real estate activities, we present our balance sheet in an unclassified presentation using the alternate format in order to reflect our assets and liabilities in order of their importance.

### **Recent Developments**

On August 3, 2016, the Company entered into a revised Agreement of Sale with the Natural Lands Trust which extended the dates for (1) closing until September 30, 2016; (2) the delivery of a title commitment until August 30, 2016; and (3) Buyer's inspection period until September 15, 2016. It also eliminated paragraphs pertaining to the Buyer's right to terminate the Agreement for lack of board approval or the inability to obtain funding commitments.

On August 11, 2016, the Company closed on the sale of approximately 74 acres of land to PennEast Pipeline Company.

Subsequently, on September 7, 2016, the Company entered into an Amendment to the Agreement of Sale with the Natural Lands Trust which extended the dates for (1) closing until November 4, 2016; and (2) the Buyers

Inspection period until September 30, 2016. Subsequently, on October 19, 2016, the Company and the Natural Lands Trust executed a second Amendment to the Agreement of Sale extending the closing date to no later than Friday, November 11, 2016. All of the other terms and conditions of the Agreement remain unchanged. On November 7, 2016, the Company closed on the sale of land with the Natural Lands Trust conveying approximately 155 acres for the purchase price of \$412,000.

Effective July 1, 2014, in accordance with the Boulder Lake Village Declaration and the provisions of the Pennsylvania Uniform Condominium Act, 68 Pa.C.S. § 3101 et seq., the Company's representatives resigned from both the Executive Board of Boulder Lake Village Condominium Association ("BLVCA") and from their positions as BLVCA officers. As a result, the BLVCA Board transitioned to an all-Unit Owner Executive Board. As part of the transition process, the BLVCA Board and the Company's management commissioned an engineering study to assess the condition of BLVCA Building J. In June 2015, BLVCA presented the Company with a Transition Engineering Evaluation of BLVCA Building J (the "Evaluation") which indicated certain deficiencies exist. Management has met with the BLVCA Board to review a proposed settlement agreement. While the actual liability of this claim is uncertain at this time and could rise to a level of materiality, management has recorded an estimated liability for what the Company believes it will owe, based on information available at the time of issuance of the financial statements.

During the fiscal year ended October 31, 2016, the Company repurchased an aggregate of 221 shares of Blue Ridge Real Estate Company common stock. Upon repurchase, the shares of stock were cancelled and returned to the status of authorized but unissued.

## **FISCAL 2016 VERSUS FISCAL 2015**

### **Net Income**

For Fiscal 2016, we reported a net loss of (\$212,128) or (\$0.09) per share, as compared with a net loss of (\$9,125,893) or (\$3.73) per share for Fiscal 2015.

### **Revenues**

Revenue of \$7,343,747 in Fiscal 2016 represents an increase of \$3,035,023, or 70% compared to \$4,308,724 in Fiscal 2015. Resort operations revenue increased to \$3,539,323 in Fiscal 2016 as compared to \$2,507,062 for Fiscal 2015 which represents an increase of \$1,032,261, or 41%. Land resource management revenue increased \$1,977,209, or greater than 100%, compared to Fiscal 2015. Real estate management/rental income increased \$25,553, or 2% compared to Fiscal 2015.

### **Resort Operations**

Resorts operations is a new business segment starting in Fiscal 2016 to better align the presentation of our operations. Resort Operations consist of the Boulder View Tavern, Boulder Lake Club, Jack Frost National Golf Course, and The Stretch fishing club. Resort operations revenue was \$3,539,323 in Fiscal 2016 as compared to \$2,507,062 in Fiscal 2015, an increase of \$1,032,261, or 41%. This was primarily the result of the timing of taking over the operation of Boulder View Tavern and Boulder Lake Club. Our operation of both facilities occurred in April 2015, therefore, 12 months of operations in Fiscal 2016 versus 7 months in Fiscal 2015. Revenues were \$2,188,577 in fiscal 2016 versus \$1,284,298 in Fiscal 2015, an increase of \$904,279 or 70%. The Jack Frost National Golf Course's revenue in Fiscal 2016 increased \$110,512, or 10%, from Fiscal 2015. This was primarily attributable to favorable weather conditions in the second and third quarters of 2016.

### **Real Estate Management/Rental Operations**

The Real Estate Management Operations/Rental Operations revenue was \$1,589,883 in Fiscal 2016 as compared to \$1,564,330 in Fiscal 2015, which represented an increase of \$25,553, or 2%. Real Estate Management revenue increased to \$719,616 in Fiscal 2016 as compared to \$717,866 in Fiscal 2015, an increase of \$1,750, or 1%. Rental revenue increased \$23,803, or 3%.

### **Land Resource Management**

Land Resource Management revenue was \$2,214,541 in Fiscal 2016 as compared to \$237,332 in Fiscal 2015, an increase of \$1,977,209, or greater than 100%. This was the result of the sale of a right of way easement in July 2016 for \$985,574 and the sale of 74 acres in August 2016 for \$1,081,755.

There was no timbering revenue in Fiscal 2016 and 2015. Land hunting leases decreased by \$1,908, or 1%.

### **Operating Costs**

#### **Resort Operations**

Operating costs associated with Resort Operations decreased to \$3,525,663 in Fiscal 2016, compared to \$11,517,933 in Fiscal 2015, a decrease of (\$7,992,270), or greater than 100%. This was primarily the result of an impairment loss taken on the Jack Frost National Golf Course in Fiscal 2015. The Boulder View Tavern and the Boulder Lake Club operating costs increased from \$1,208,356 to \$2,035,562, an increase of \$827,206 in Fiscal 2016, compared to Fiscal 2015. Boulder View Tavern and Boulder Lake Club became an operating center for the Company in April 2015. Previously this operation was leased to a third-party operator.

#### **Real Estate Management/Rental Operations**

Operating costs associated with Real Estate Management Operations/Rental Operations for Fiscal 2016 were \$1,013,189 as compared to \$1,073,606 for Fiscal 2015, which represents a decrease of (\$60,417), or (6%). This decrease was primarily related to the lease cancellation fee in the first quarter of Fiscal 2015 relating to the termination of the Boulder View Tavern operating lease (\$25,000) and reduced repair and maintenance expense in Property management/utilities (\$37,000) in Fiscal 2016.

#### **Land Resource Management**

Operating costs associated with Land Resource Management for Fiscal 2016 was \$982,846 compared to \$628,256 for Fiscal 2015, an increase of \$354,590, or 56%. This increase was primarily the result of accrued settlement funds for the Boulder Lake Village remediation work.

#### **General and Administration**

General and administration costs for Fiscal 2016 were \$1,795,540, as compared with \$1,713,768 for Fiscal 2015, which represents an increase of \$81,772, or 5%. This increase was primarily related to increases in pension, salary and related benefits (\$148,000), netted against decreases in legal, supplies and services and consulting (\$61,000).

#### **Other Income and Expense**

Interest and other income was \$10,576 in Fiscal 2016, as compared to \$2,453 in Fiscal 2015, an increase of \$8,123 relating to interest income, or greater than 100%.

Interest expense for Fiscal 2016 was \$486,452 as compared to \$503,589 for Fiscal 2015, a decrease of (\$17,137), or (3%). There was no capitalized interest in Fiscal 2016 or 2015.

Interest and dividends on marketable securities, net was \$68,557 in Fiscal 2016 compared to \$28,801 in Fiscal 2015, an increase of \$39,756, or greater than 100%. In Fiscal 2016, this amount included \$111,551 of interest income which was reduced by \$42,994 of amortized bond premium compared to \$127,175 of interest income reduced by \$98,374 of amortized bond premium in Fiscal 2015.

#### **Discontinued Operations**

At October 31, 2016, there are no discontinued operations. The Coursey Commons Shopping Center in Baton Rouge, Louisiana was sold on December 15, 2014.

The net income after taxes from discontinued operations for the Baton Rouge Louisiana investment property for Fiscal 2016 was \$0 as compared to \$1,219,289 for Fiscal 2015 (including the gain on disposal of \$1,879,732).

**Tax Rate**

The effective tax rate for income taxes (benefit) was 44% in Fiscal 2016 and 7% in Fiscal 2015. The provision for income taxes in Fiscal 2015 includes a \$3,026,000 increase in the valuation allowance on the current year impairments and \$260,000 to account for the utilization of the deferred state tax asset created in Fiscal 2014, primarily related to the sale of Coursey Commons which occurred on December 15, 2014.

**Liquidity and Capital Resources**

As reflected in the Statements of Cash Flows, net cash provided by operating activities was \$1,031,448 for Fiscal 2016 versus net cash used in operating activities of \$1,350,112 for Fiscal 2015. The net increase is primarily due to the two land transactions in Fiscal 2016, one the sale of a right of way easement and the second a sale of land.

The \$986,000 sale of a right of way and the \$1,081,755 sale of land are the two material non-recurring cash items for Fiscal 2016. The \$10,900,000 sale of Coursey Commons Shopping Center is the material non-recurring cash item for Fiscal 2015.

In December 2014, the Company invested the proceeds of \$7,489,408 from the sale of Coursey Commons Shopping Center in marketable securities. In February 2016, the Company diversified a portion of the portfolio, not to exceed \$2,500,000 to preferred stocks of financial services, insurance services and real estate investment trusts (REITS). In October 2016, the Company increased the maximum investment in preferred stocks to \$4,000,000. The investment portfolio includes, corporate obligations, government agencies and commercial paper with a minimum single A rating and no maturity greater than 2 years and preferred securities with a goal to provide current income with capital preservation over a 3 to 5-year time horizon. At October 31, 2016, the Company's cash and marketable securities totaled \$8,100,142 compared to cash and marketable securities of \$7,932,855 at October 31, 2015.

On October 1, 2014, the Company entered into a \$3,000,000 short term promissory note with Kimco Capital Corporation. The "interest only" note was secured with a mortgage on Coursey Commons Shopping Center. The note had an interest rate of 5.59% per annum payable monthly and a maturity date of December 31, 2014. On December 15, 2014, the Coursey Commons Shopping Center was sold and the loan with Kimco Capital Corporation was paid in full.

In March 2015, Blue Ridge Real Estate opened a brokerage account with Cetera Advisor Networks, LLC thru Mauch Chunk Trust Company. The Company purchased two brokered certificates of deposit totaling \$250,000. In March 2016, a \$75,000 brokered certificate matured and \$77,000 was reinvested in a Mauch Chunk Trust certificate of deposit with a maturity of July 6, 2021. The remaining brokered certificate of deposit will mature in March of 2017. Both certificates are included in Marketable Securities Available for Sale, which approximates fair value.

On April 13, 2015, Lake Mountain, LLC entered into a commercial line of credit with Mauch Chunk Trust Company in the amount of \$250,000. Interest is to be paid monthly on the unpaid principal balance and the line has a maturity of April 14, 2017. Interest is at a rate of Prime plus 1.00% (4.50% at October 31, 2016). The line is collateralized with a recorded lien on the brokerage account with Mauch Chunk Trust Company. Funds drawn on the line of credit will be used for working capital needs. As of October 31, 2016, there is a \$0 balance outstanding on the line.

On January 8, 2016, the Company established an irrevocable stand-by Letter of Credit up to an aggregate of \$140,000 in favor of Pennsylvania Department of Environmental Protection (PA-DEP), Bureau of Waterways Engineering with Mauch Chunk Trust Company. The Letter has a term of one year, renewable annually and is collateralized by the Company's brokerage account with Cetera Advisor Networks, LLC. The letter was established to comply with legislation that requires Blue Ridge as a private owner of 2 dams to post a financial guarantee adequate to breach the dams if we fail to comply with PA-DEP safety requirements.

On April 1, 2016, the Company entered into a loan agreement with Mauch Chunk Trust in the amount of \$50,000. The proceeds were used to purchase docks at the Boulder Lake Club. Payments of \$1,472 are due monthly with a maturity date of April 1, 2019. The interest rate is fixed at 3.75%. The loan is secured by the Company's certificate of deposit. The balance on this loan at October 31, 2016 is \$42,060. As of October 31, 2016, borrowing available on the line of credit with Mauch Chunk Trust is limited to approximately \$60,000 due to the Letter of Credit and loan agreement. Interest is at a rate of Prime plus 1% (4.50% as of October 31, 2016).

The following table sets forth the Company's significant contractual cash obligations for the items indicated as of October 31, 2016, and their expected year of payment or expiration.

Contractual Obligations:	Total	Less than 1 year	1-3 years	4-5 years	More than 5 years
Long-Term Debt-Investment Properties	\$6,913,049	\$292,090	\$976,478	\$752,065	\$4,892,416
Capital Leases	22,694	22,694	0	0	0
Debt Sub-total	\$6,935,743	\$314,784	\$976,478	\$752,065	\$4,892,416
Fixed Rate Interest	\$4,126,703	\$467,567	\$1,273,622	\$730,396	\$1,655,118
Variable Rate Interest	0	0	0	0	0
Interest Sub-total	\$4,126,703	\$467,567	\$1,273,622	\$730,396	\$1,655,118
Pension Contribution Obligations (1)	\$309,800	\$309,800			
Total Contractual Cash Obligations	\$11,372,246	\$1,092,151	\$2,250,100	\$1,482,461	\$6,547,534

(1) Estimated funding obligations beyond the current fiscal year are not presented because the requirements fluctuate based on the performance of the plan assets, discount rate assumptions and demographics.

We currently anticipate that the funds needed for future operations and to implement our land development strategy will be satisfied through operating cash, marketable securities, borrowed funds, public offerings or private placements of debt or equity and reinvested profits from sales.

### **Critical Accounting Policies and Significant Judgments and Estimates**

We have identified the most critical accounting policies upon which our financial reporting depends. The critical policies and estimates were determined by considering accounting policies that involve the most complex or subjective decisions or assessments. The most critical accounting policies identified relate to deferred tax liabilities, the valuation of land development costs and long-lived assets, and revenue recognition.

Revenues are derived from a wide variety of sources, including sales of real estate, management of investment properties, operation of a restaurant and recreational lake club facility, property management services, golf activities, timbering, home construction and leasing activities. Generally, revenues are recognized as services are performed, except as noted below.

We recognize income on the disposition of real estate using the full accrual method. The full accrual method is appropriate at closing when the sales contract has been signed, the buyer has arranged permanent financing and the risks and rewards associated with ownership have been transferred to the buyer. In the few instances that the Company finances the sale, a minimum 20% down payment is required from the buyers. The remaining financed purchase price is not subject to subordination. Down payments of less than 20% are accounted for as deposits.

The costs of developing land for resale as resort homes and the costs of constructing certain related amenities are allocated to the specific parcels to which the costs relate. Such costs, as well as the costs of construction of the resort homes, are charged to operations as sales occur. Land held for resale and resort homes under construction are stated at lower of cost or market.

Timbering revenues from stumpage contracts are recognized at the time a stumpage contract is signed. At the time a stumpage contract is signed, the risk of ownership is passed to the buyer at a fixed, determinable cost. There is no transfer of title in connection with these contracts. Reasonable assurance of collectability is determined

by the date of signing and, at that time, the obligations of the Company is satisfied. Therefore, full accrual recognition at the time of contract execution is appropriate.

Deferred income consists of rents, dues and deposits on land or home sales. These rents, which are not yet earned, are rents from the Company's commercial properties that have been paid in advance. Dues are dues paid in advance related to memberships in the Company's hunting and fishing clubs and golf course memberships paid. Revenues related to the hunting and fishing clubs and golf course memberships are recognized over the seasonal period that the dues cover. We recognize revenue related to the fishing club over a five-month period from May through September, and the golf course over a seven-month period, from April through October. Deposits are required on land and home sales.

Management's estimate of deferred tax assets and liabilities is primarily based on the difference between the tax basis and financial reporting basis of depreciable assets, like-kind exchanges of assets, net operating losses and accruals. Valuation allowances are established when necessary to reduce tax assets to the amount expected to be realized.

Real estate development projects are stated at cost unless an impairment exists, in which case the project is written down to fair value in accordance with GAAP. We capitalize as land and land development costs, the original acquisition cost, direct construction and development costs, property taxes, interest incurred on costs related to land under development and other related costs (engineering, surveying, landscaping, etc.) until the property reaches its intended use. Because the development projects are considered as long-lived assets under GAAP, we are required to regularly review the carrying value of each of the projects and write down the value of those projects when we believe the values are not recoverable. The cost of sales for individual parcels of real estate or condominium units within a project is determined using the relative sales value method. Revenue is recognized upon signing of the applicable closing documents, at which time a binding contract is in effect, the buyer has arranged for permanent financing and the Company is assured of payment in full. In addition, at the time of closing, the risks and rewards associated with ownership have been transferred to the buyer. Selling expenses are recorded when incurred.

Long-lived assets, namely properties, are recorded at cost. Depreciation and amortization is provided principally using the straight-line method over the estimated useful life of the asset. Upon sale or retirement of the asset, the cost and related accumulated depreciation are removed from the related accounts, and resulting gains or losses are reflected in income. We test for recoverability our long-lived assets whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. In that event, we utilize either or both a discounted cash flow method or comparable sale pricing method to determine a fair market value. If our use of one or both of these methods indicates that the carrying value of the asset is not recoverable, an impairment loss is recognized in operating income. An impairment loss is the difference between the carrying value and the fair value of the asset less cost to sell. An impairment loss is recognized during the period in which the impairment is determined to be probable and reasonably estimable.

Assets are classified as long lived assets held for sale when they are expected to be sold within the next year. The amount in long lived assets held for sale at October 31, 2016 included 155 acres under agreement of sale with the Natural Lands trust that closed on November 7, 2016. There are no long lived assets classified as held for sale at October 31, 2015.

Significant judgment is applied in assessing the realizability of deferred tax assets. In accordance with GAAP, a valuation allowance is established against a deferred tax asset if, based on the available evidence, it is more-likely-than-not that such asset will not be realized. The realization of a deferred tax asset ultimately depends on the existence of sufficient taxable income in either the carryback or carryforward periods under tax law. We assess the need for valuation allowances for deferred tax assets based on GAAP's "more-likely-than-not" realization threshold criteria. In our assessment, appropriate consideration is given to all positive and negative evidence related to the realization of the deferred tax assets. Forming a conclusion that a valuation allowance is not needed is difficult when there is significant negative evidence such as cumulative losses in recent years. This assessment considers, among other matters, the nature, consistency and magnitude of current and cumulative income and losses, forecasts

of future profitability, the duration of statutory carryback or carryforward periods, our experience with operating loss and tax credit carryforwards being used before expiration, and tax planning alternatives.

Our assessment of the need for a valuation allowance on our deferred tax assets includes assessing the likely future tax consequences of events that have been recognized in our consolidated financial statements or tax returns. Changes in existing tax laws or rates could affect our actual tax results and our future business results may affect the amount of our deferred tax liabilities or the valuation of our deferred tax assets over time. Our accounting for deferred tax assets represents our best estimate of future events.

Due to uncertainties in the estimation process, particularly with respect to changes in facts and circumstances in future reporting periods (carryforward period assumptions), actual results could differ from the estimates used in our analysis. Our assumptions require significant judgment because the residential home building industry and land sales are cyclical and highly sensitive to changes in economic conditions. If our results of operations are less than projected and there is insufficient objectively verifiable positive evidence to support the “more-likely-than-not” realization of our deferred tax assets, a valuation allowance would be required to reduce or eliminate our deferred tax assets.

Our deferred tax assets consist principally of the recognition of losses primarily driven by recognition of net operating losses and inventory impairments. In accordance with GAAP, we assessed whether a valuation allowance should be established based on our determination of whether it was “more-likely-than-not” that some portion of all of the deferred tax assets would not be realized, we recorded valuation allowances against our state net operating loss carryforwards for the amount not expected to be used.

At October 31, 2015, we have utilized a portion of prior year federal tax loss carryforwards on our Fiscal 2014 federal income tax return. The loss carryforwards result from prior year losses incurred for federal income tax purposes. We have offset our gain on the sale of Coursey Commons Shopping Center which occurred on December 15, 2014 with operating losses from year ending October 31, 2015 and a portion of the prior year federal tax loss carryforwards.

We file tax returns in the various states in which we do business. Each state has its own statutes regarding the use of tax loss carryforwards. Some of the states in which we do business do not allow for the carry forward of losses while others allow for carry forwards for 5 years to 20 years.

Interest, real estate taxes, and insurance costs, including those costs associated with holding unimproved land, are normally charged to expense as incurred. Interest cost incurred during construction of facilities is capitalized as part of the cost of such facilities. Maintenance and repairs are charged to expense, and major renewals and betterments are added to property accounts.

We sponsor a defined benefit pension plan as detailed in Note 9 to the accompanying audited financial statements. The accounting for pension costs is determined by specialized accounting and actuarial methods using numerous estimates, including discount rates, expected long-term investment returns on plan assets, employee turnover, mortality and retirement ages, and future salary increases. Changes in these key assumptions can have a significant effect on the pension plan’s impact on the Company’s financial statements. We engage the services of an independent actuary and investment consultant to assist us in determining these assumptions and in calculating pension income. The pension plan is currently underfunded and, accordingly, the Company has made contributions to the fund of \$153,300 and \$318,617 in Fiscal 2016 and Fiscal 2015, respectively. The Company expects to contribute another \$309,800 in Fiscal 2017. Future benefit accruals under the pension plan ceased as of August 31, 2010. The Company also has a 401(k) pension plan that is available to all full time employees. Effective January 1, 2016, the Company matches 100% of employee salary deferral contributions up to 5% of their pay for each payroll period.

The Company recognizes as compensation expense an amount equal to the grant date fair value of the stock options issued over the required service period, if any. Compensation cost was measured using the modified prospective approach.

**Off-Balance Sheet Arrangements**

We have no off-balance sheet arrangements.

**Legal Proceedings**

We are presently a party to certain lawsuits arising in the ordinary course of our business. We believe that none of our current legal proceedings will be material to our business, financial condition or results of operations.
